

## Use this chart to determine your pet's "true" age.

	Age	Weight 0-20 lbs.	Weight in Pounds			
			0-20	21-50	51-90	> 91
<i>Feline</i>	1	7	7	7	8	9
	2	13	13	14	16	18
	3	20	20	21	24	26
	4	26	26	27	31	34
	5	33	33	34	38	41
	6	40	40	42	45	49
	7	44	44	47	50	56
	8	48	48	51	55	64
	9	52	52	56	61	71
	10	56	56	60	66	78
	11	60	60	65	72	86
	12	64	64	69	77	93
	13	68	68	74	82	101
	14	72	72	77	87	108
	15	76	76	83	93	115
	16	80	80	87	99	128
	17	84	84	92	104	131
	18	88	88	99	109	139
	19	92	92	101	115	
	20	96	96	105	120	
	21	100	100	109	126	
	22	104	104	113	132	
	23	108	108	117		
	24	112	112	120		
	25	116	116	124		

### Pet Aging

How quickly a pet ages depends on many different factors. The pet's genetic heritage, weight, overall health, underlying diseases and cardiovascular condition all contribute to a pet's aging. This chart provides a rough estimate of how a pet's weight and age combine to approximate "human years".
